

2025 SEASON

Welcome to the great outdoors!

Go jump in the lake?! Don't mind if we do! The best place to beat the heat wave this 2025 season? The lake, of course! Spring was cold, wet and slow in the village but as soon as June hit, the sun came out and never turned back! Hazy heat, low water levels, plenty of dips in the lake and oh yes, ice cream! Every moment at Charleston Lake is a chance to make memories with your loved ones. We extend our thanks to you for joining us in embracing Charleston Lake in all of it's natural beauty both on land and on the water.

Hot, Hot, Hot!

We are mid September here now and the water level is down about 14". Lack of rain and lots of evaporation are the culprits of the low water levels this season. We have experienced one of the most dry summers since 1964 at Charleston. Driving around this summer, you may have noticed the trees changing colour early, lawns turning brown and the low lake level that began dropping in June. Much attention was brought to the shoals and docking situations throughout the summer - a few of you may have even joined the dented prop club! Ice cream and frequent jumps off the dock were our cure to the heat. Forever thankful to have both options right here on site!

September 4th our storm video went viral - this is a first for us here at Lakeline. We are currently at 17,300+ views and counting! Neat!

Make a Difference - Show Someone New How to Fish

"Picture the person who first took you fishing. Now picture yourself inspiring that same passion. You can share that great feeling and build our fishing resources for tomorrow - resources that depend on licence sales and need help. Did you know that by introducing someone new to the sport you love, you help fishing and our waterways? On average 80% of what you pay for a fishing license goes back to conserving and restoring natural resources." - Anglers Legacy

We at Lakeline, sell Ministry of Natural Resources fishing and hunting licenses, support the future of fishing.

Lenora Elaine Ireland

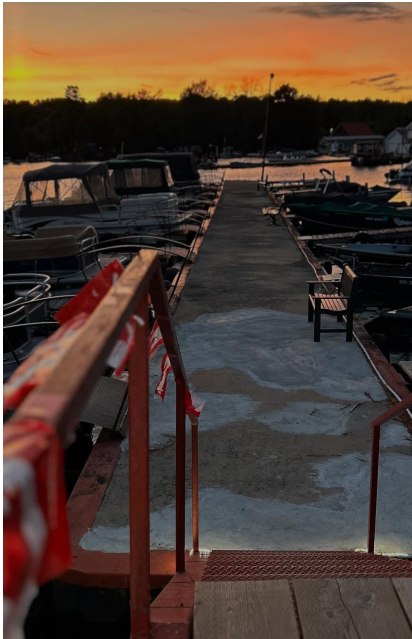

February 1932 - April 2025. Grandma has joined her husband, Glenn Ireland, and her daughter, Shelley Ireland, where the sunshine warms her skin, the lake is a calm sapphire blue, and the pink roses are plentiful, always. We know she has found a picnic table beside the lake, and she's saying hello to each passerby. She would always come to the store asking who was in the cottages the following week so she could visit. She loved seeing the guests arrive in the spring, saying she loved seeing the cottage lights on, hearing the laughs. Grandma has proudly left her mark here on Charleston Lake in the cottages and property she meticulously cared for.

Renovations

With 9 rentals units, there is never a shortage of work to be completed! This years list includes; new bedroom & bathroom doors throughout, some new mattresses, #4&5 bathroom shelving, #1 toilet, #3 paint, bathroom tile & light. Updated electrical throughout. This summer we have been switching out the old porch chairs for a new style (one cottage to go). Dock boards are being replaced as needed. Plastic on the outside bridges has been installed to save the dock boards in wind storms.

Main Dock

Google describes a "small town restaurant" using these terms: Community Focus, Cozy & Welcoming Atmosphere, Hearty & Comforting Food, Reasonable Priced, Local Charm, Dedicated Service, Limited Menu. Main Dock embodies all of these small town descriptives and is located in our favourite place on earth; Charleston Lake! We are proud of the little gathering place at the dock. We thank you for visiting us in our first year of business and look forward to serving all of you loons and locals in the 2026 season for lakeside coffee and some lunch at the launch! Main Dock 2026 season will begin May 1st, and end September 13th.

Area Burn Ban Still Resulted in August Island Fire

Rabbit Island caught fire in August resulting in 2.5 acres burnt off. Bruce, who's family has been on Rabbit Island for more than 50 years, happened to notice the smell of smoke and jumped to action with garden hose in one hand, cell phone calling 9-1-1 in the other! Thankfully he was on the island at the time, and the wind was minimal. The fire was caused by a burn barrel not being properly extinguished prior to a neighbouring cottager departing the island. The island is 6.9 acres total. The cottages on the island were left unscathed as the fire went towards the south. Thanks to Bruce's quick response, firefighters were able to get the fire under control before the island was completely taken over by fire.

Get Outside!

Get outside for a breath of fresh air! Charleston Lake, where we leave our cellphones and TV screens behind and enjoy nature in all of it's glory. The time spent with family and friends here at Charleston is always a joy and creates lifelong memories. We enjoy sharing this destination to you and yours. What a wonderful group of people we have as clients and friends here at Lakeline Lodge.

Casting off..

The Lakeline Lodge staff is one of a kind and we are so fortunate to have these individuals on our team. They make everyone feel so welcome and customers leave with a smile; Anna, Danielle, Janice & Ryan, thank you! We hope you all winter well, wherever that may be, and that spring comes with good health, time with family and a trip to Charleston Lake. We look forward to seeing you here at the lake!

- THE STAFF AND IRELAND FAMILY AT LAKELINE LODGE

Steel siding on the cottages adds a more natural, updated look to the property.
